Cloud Dashboard

Click here for Data Loggers Info

Number of Active Loggers

Total Number of Loggers

Location of Loggers where they installed

This is a front Dashboard of our Cloud Server. On this page, you will get to know about how much total number of Data loggers are Installed and how many are active from them. Also, you can check the location of Data loggers for where they are installed on the Map.

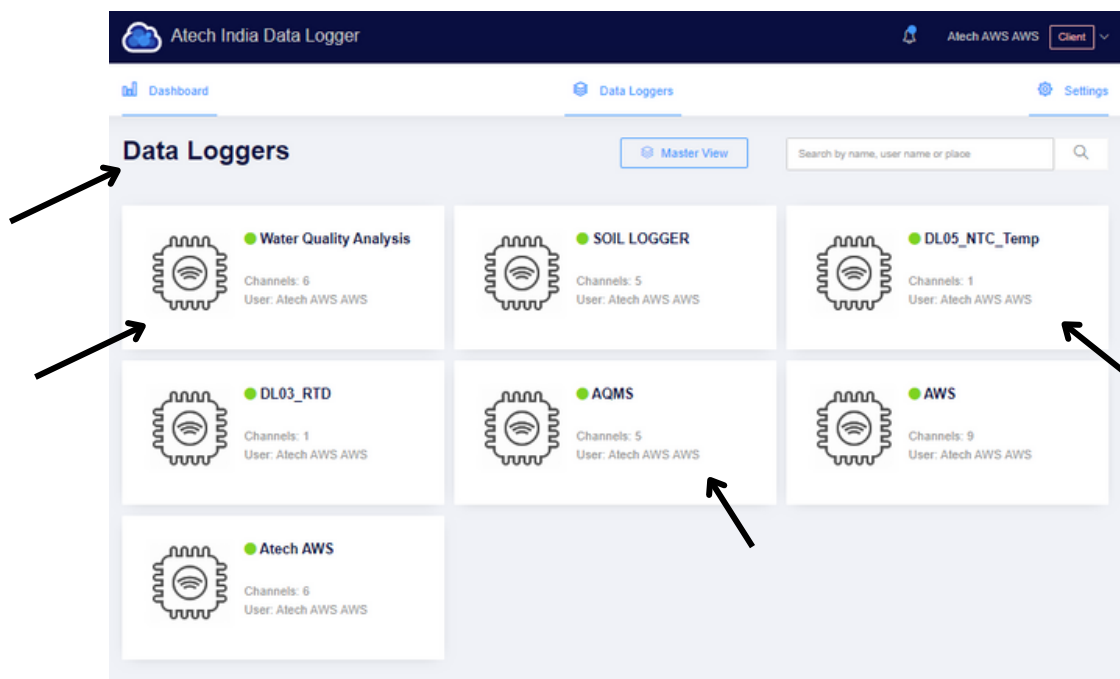

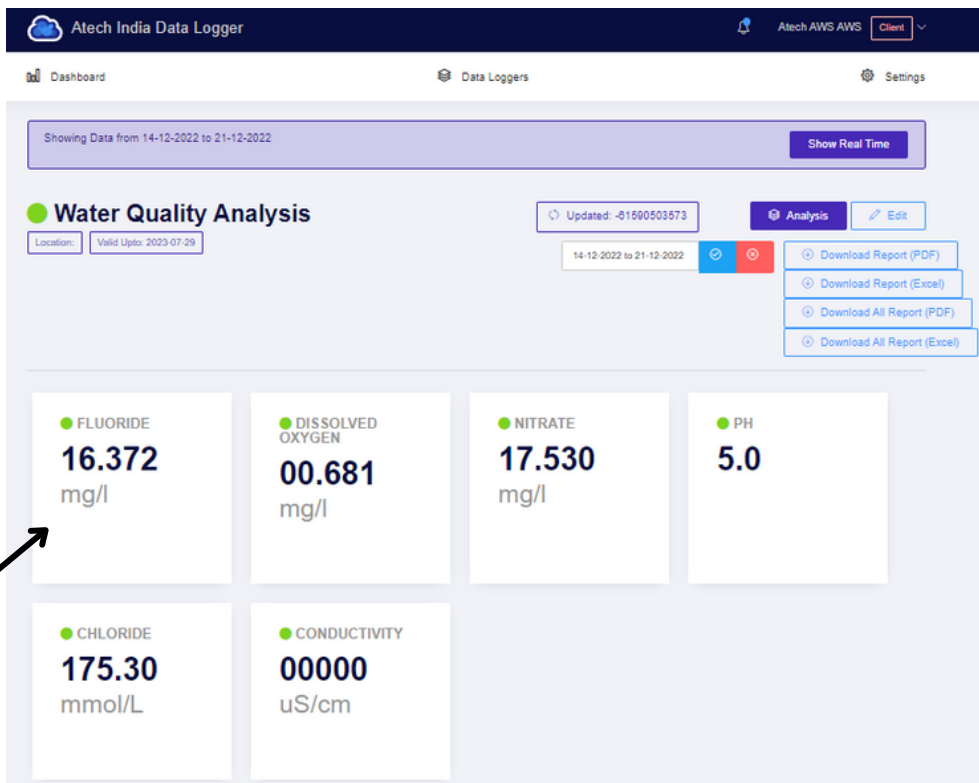

After clicking on the Data Loggers option you will redirect to this page where you can open and check any of your logger's Data particulary.

Readings

After clicking on the Data Logger's name option you will redirect to that particular logger to check and monitor their readings.
In this you can check your Data Logger's readings in many types like Chat View, Table View etc.

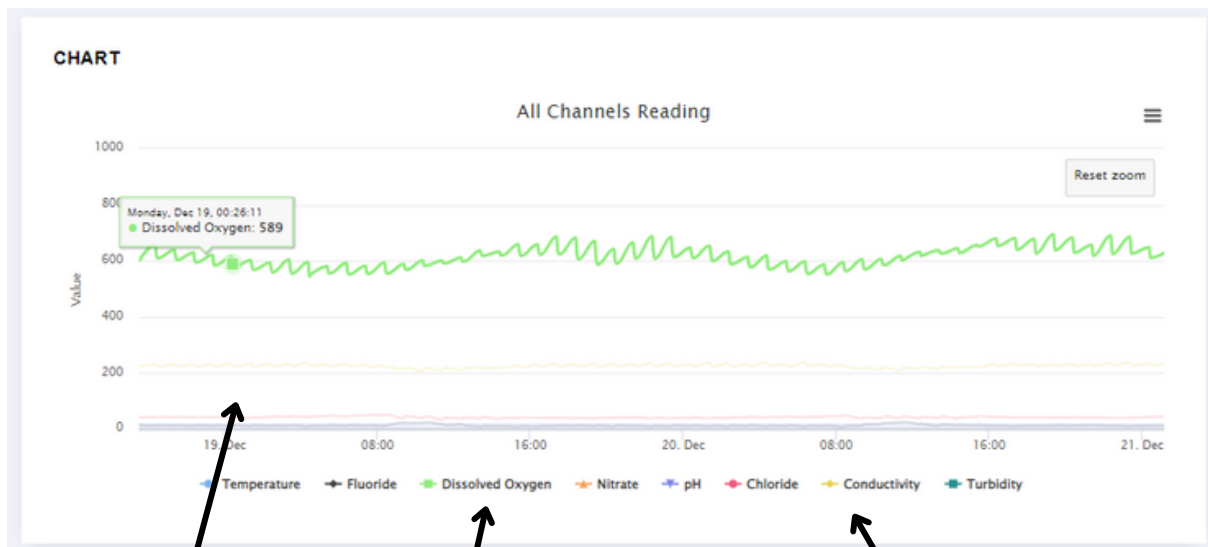

Chart Readings View

Parameters

Here You can check your data in a chart view of all the parameters.

Date	Temperature	Fluoride	Dissolved Oxygen	Nitrate	pH	Chloride	Conductivity	Turbidity
21-12-2022 11:36	19.4 °C	19.1 ppm	00604 mg/ml	00.09 ppm	8.17	044.39 ppm	00216 us/cm	0.00216 Ntu

readings in Table view

Here You can check all Readings in a chart view of all the parameters. You can also view older data from the down side page page buttons.

On this page, you can also download the data readings date-wise in many forms like excel, Pdf, etc.

Here you will also get an Analysis Button option where you can analyze your Readings Data.
