CUSTOMIZE AND BUILD SMART GUI

DIGITAL NOTICE BOARD

Get Your Campus Digitized and Interact Smartly

Introducing paper-less messaging solutions. The World is Going Digital Are you still on Paper? Digital display technology has long been recognized for its ability to communicate messaging in schools . Now circulate multiple information with single clicks and exciting features and make your campus digital
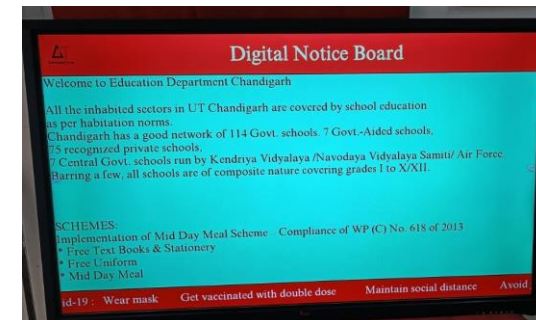

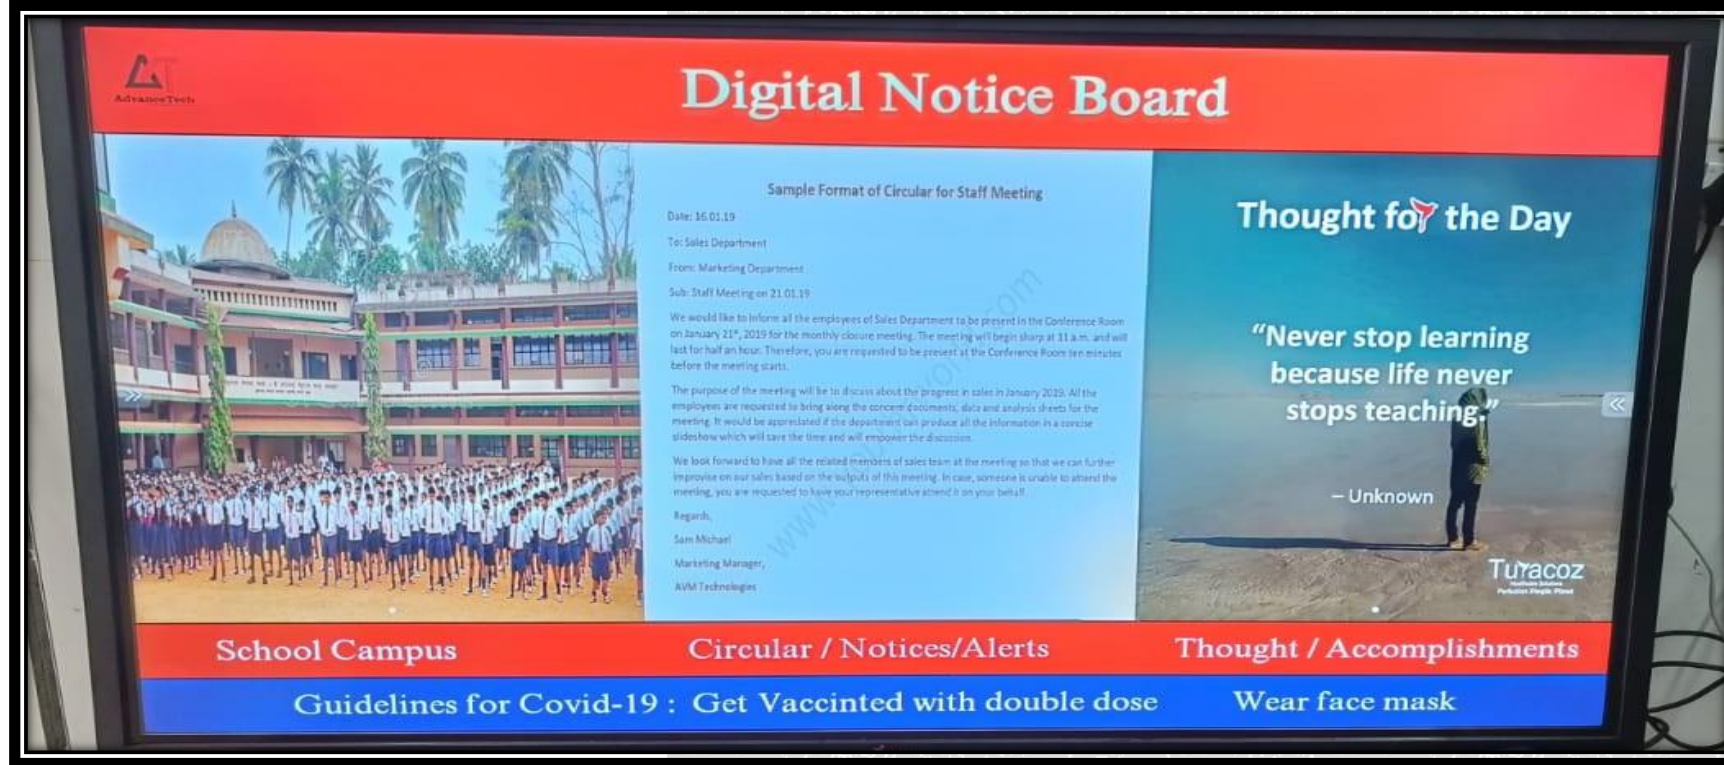

WHY TO UPGRADE TO LATEST TECHNOLOGY?

OLD NOTICE BOARDS	DIGITAL NOTICE BOARDS
Scattered / Piled Up circulars sticked one over another	Multiple circulars in loop focusing one at a time with a delay time
More the Information , more the area of Board	Display lots of varied information on a single display
Involves Printing of Papers	Completely Paperless and Eco-Friendly
Inefficient and time consuming manual work to get notice displayed	Efficient and quick way to display , update or remove information with a single touch
No customization in colour and content	Customize and Brand your school in your board.
Manually paste circulars in multiple Boards	Broadcast any number of circulars on specific boards from one system
No live information Display	Display Videos , Live Websites / URL's
No provision of ALERTS	Display urgent Alerts / Notices
